

Today's Gift of Happiness

The secret is...

**It's only impossible because you haven't
found the right path to it yet...**

**When you surrender to the right path
Anything is possible...**

In fact the possibilities will astound you!

Repeat at least three times every day..

*"I surrender to the divine path of possibilities.
I accept everything is possible! I remove my own
resistance and allow the possibilities in!"*
